

CANTOLINE

Containment hoods
H=380mm and 530mm

VENTILATION OF PROFESSIONAL KITCHENS, A SPECIALIST AFFAIR.

CANTOLINE

DESIGN / MANUFACTURE

The **CANTOLINE** range is **single-block** from 500 to 2500mm (single block up to 3000mm available as an option). Longer lengths are created by assembling single block units screwed together, with no visible fixings on the outer faces and in the containment volume.

CANTOLINE hoods are available in two heights:

CANTOLINE 38: height = 380mm

CANTOLINE 53: height = 530mm

Crimped ØM8 nuts are built into each end of the unit, making it possible to suspend it from threaded rods.

The **production method used, with folds on all visible parts,** gives a finish that is free of burrs and protruding parts.

All parts are manufactured from AISI 304 austenitic stainless steel (CN 18-10), brushed finish on both sides, 220 grade with PVC protection.

The **design of the ends avoids all markings on the outer faces.** They are assembled using heat-welded pins and nuts.

As standard, Ø315 connection hoop assembled.
