VENTILATION OF PROFESSIONAL KITCHENS, A SPECIALIST AFFAIR.

# MODULINE 3 STATIC

## DESIGN / MANUFACTURE

The MODULINE 3 design is the direct result of our experience of product lines for "large kitchens". This semi-professional, single block hood, **is available in three 600, 900 and 1200 versions.**

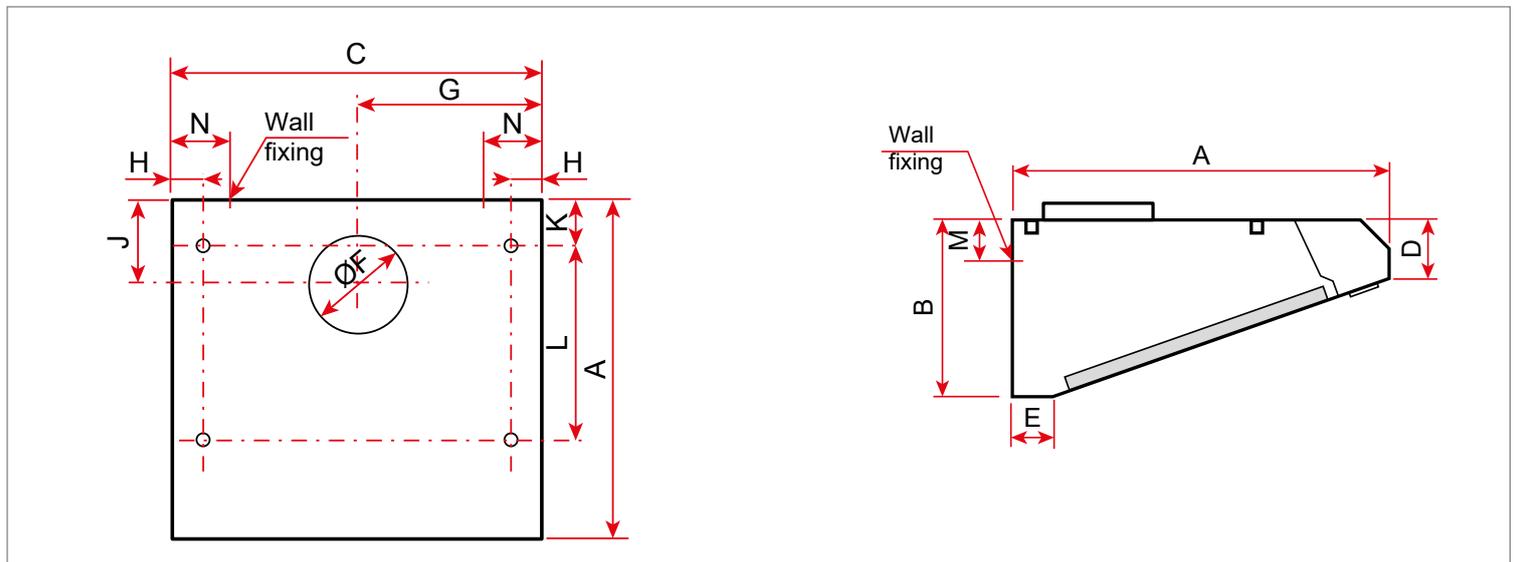

**The different parts are assembled without any visible fixings.** Back fixing using 2 Ø9 holes (hardware not included) and crimped ØM6 nuts, make it possible to suspend it from threaded rods.

**All visible parts are manufactured from AISI 304 stainless steel**, brushed finish on both sides, 220 grade with PVC protection.

- **Mesh filters** 398x284x22mm with stainless steel frame and handle, galvanised medium or stainless steel 398x284x22mm **baffle filters.**
- **Lighting from directional built in spots, 35W, IP44, with front face control.**
- **Connection hoop fitted.**

MODULINE 3	No of filters	No of spots
600	2	2
900	3	2
1200	4	3
